

TRAVELS AND TREASURES

Give your favorite epicurean a getaway that's soon to be on every food and wine lover's wish list: a visit to the newly opened The Vines Resort & Spa, located at the foot of the Andes in Argentina's perennially sunny Uco Valley. The stunning property – a combination of eco-friendly lodge and private villas – is set among more than 1,000 acres of vineyards currently producing 230 wines using 18 varieties of vino. Activities run the gamut from wine education workshops to taking part in harvest to simply savoring an asado or traditional barbecue meal at the resort's onsite restaurant, Siete Fuegos. Vines also offers guests the opportunity to create, bottle, and label their own personal brand. vinesresortandspa.com
